PROVIDER/PRESCRIBER GUIDELINES:
• Patient must have a repeat HIV viral load and CD4 counts performed 12 and 24 weeks after initiation of the regimen to assess effectiveness.
• If CD4 and/or viral load have not improved, clinical improvement (or clinically stable if condition was worsening before) must be documented for continuation of the new regimen.
• The prescriber must review the state guidelines and/or restrictions concerning the use of these medications to determine that the patient qualifies.
• The prescriber should be an experienced HIV/AIDS provider or should consult with a specialist and must have sufficient office/clinic capability to provide patient education and monitoring.
• Guidelines: http://aidsinfo.nih.gov/guidelines / https://dph.georgia.gov/nurse-protocols
• Hepatitis C Guidelines: http://www.hcvguidelines.org/
• Georgia Department of Public Health Hepatitis C Testing Tool Kit: https://dph.georgia.gov/sites/dph.georgia.gov/files/related_files/site_page/ADES_Hepatitis_C_Testing_Toolkit_for_Primary_Care_Providers_in_Georgia.pdf
